- ☐ Sustainable treatment
- ☐ Open therapy device
- ☐ TÜV-approved medical technology

ARTHRO · SPIN · FLEX

MBST Magnetic Resonance treatment couch for: **shoulder, back, spine, intervertebral discs, hip, leg, double-knee**

The extraordinary design and the open construction offer a lot of free space not only for anxious or claustrophobic patients. The moveable applicators enable easy access and allow the treatment of physically handicapped persons.

The proven ARTHRO-SPIN-FLEX therapy device enables the gentle and safe treatment of multiple indications around the musculoskeletal system. For example degenerative diseases, disorders of bone metabolism, acute and chronic injuries.

One therapy session lasts for 60 minutes. As long as the body part treated remains within the treatment area, the patient is free to move. He can for instance read, listen to music or even sleep during the therapy. The attending physician defines the necessary number of therapy units depending on the indication and severity of the damage.

- treatment volume approx. 150 l
- max. patient weight 180 kg

The patented and TÜV-certified medical technology of the MBST therapy device complies with current EU norms and can be used for all age groups.
