MBST Magnetic Resonance Treatment System for: [spine](#), [shoulder](#), [arm](#), [elbow](#), [hand](#), [finger](#), [hip](#), [leg](#), [knee](#), [feet](#) and [toes](#)

With the PRO-MOBIL therapy system it is possible to carry out a prescribed MBST Magnetic Resonance Therapy at nearly every place, at home for example.

The mobile control unit and up to two applicators can be stored and transported easily in the rollaway case.

The PRO-MOBIL therapy system enables the treatment of patients of nearly every age and size.

The mobile MBST therapy system is also used by many team doctors for the efficient treatment of acute and chronic sports injuries in professional and leisure sports.

The proven PRO-MOBIL therapy device enables the gentle and safe treatment of multiple indications around the musculoskeletal system. These could be for example degenerative diseases, disorders of bone metabolism, acute and chronic injuries.

One therapy session lasts for 60 minutes. Meanwhile the patient can sit or lie comfortably and can for instance read, listen to music or even sleep. The attending physician defines the necessary number of therapy units depending on the indication and severity of the damage.

- treatment volume up to 2 l
- approx. 11 kg in the rollaway case

Applicator width
255 mm

The patented medical technology of the MBST therapy device in TÜV-certified quality complies with current EU norms and can be used for all age groups.
