

MBST Award 2020 goes to Ilker Hasa · MBST Turkey

At the 3rd Wetzlar Medical Symposium about MBST magnetic resonance therapy in Wetzlar, the Turkish MBST master licence partner and managing director of the Physical Treatment Centre in Samsun Ilker Hasa was honoured for his outstanding commitment to the expansion of MBST therapy and his public relations activities.

MBST Award for Ilker Hasa

On the 6th of March 2020 at the gala evening during the third international medical symposium in Wetzlar about MBST magnetic resonance therapy, Ilker Hasa was presented with an MBST Award by MedTec Managing Director Axel Muntermann. Ilker Hasa is the MBST master licence partner for Turkey where the MBST therapy has been successfully used for nearly 10 years in several Turkish treatment centres, among others in Istanbul, Ankara and Kocasinan.

Expansion plans for MBST treatment centres in Turkey

The Turkish MBST master licence partner plans on opening further MBST centres throughout the whole of the country. Beside the treatment of other indications, the Turkish treatment centres focus on osteopenia and osteoporosis which is partly due to cultural circumstances.

Ilker Hasa is also the Managing Director of the MBST Centre for Physiotherapy and Rehabilitation in Samsun. He states that with the MBST therapy devices, they were able to achieve an improvement rate of 95% in the treatment of herniated discs, osteoarthritis, joint and knee pain, osteoporosis and injuries of professional athletes. According to Ilker Hasa, the mainly positive treatment result of the MBST magnetic resonance therapy system has also been apparent in studies by the Department for Physiotherapy of the medical faculty of the University of Erciyes and the medical faculty of the University of Ondokuz Mayıs.

The head of the Department for Physical Medicine and Rehabilitation of the medical faculty OMÜ Dr. Ömer Kuru confirmed that they have very good results in the treatment of many patients with the MBST magnetic resonance therapy system.

About MedTec Medizintechnik GmbH

Founded in 1998, MedTec Medizintechnik GmbH from Wetzlar has developed from a pioneer to world market leader in the field of therapeutically used MBST magnetic resonance technology. MedTec develops, produces and distributes the worldwide unique and patented technology that is used in MBST therapy system for human, veterinary and aesthetic medicine. Doctors, specialist, medical centres, hospitals, clinics and universities put their trust in the MBST therapy system today – not only in Germany and Europe but worldwide. It is MedTec's vision to enable a healthy, active and pain-free life for patients of nearly every age with its therapeutically used MBST technology. The MBST magnetic resonance therapy achieves that in the treatment of various degenerative diseases and injuries of the musculoskeletal system without needing drugs, injections, infusions, pain killers or surgical interventions. More than 1,000,000 hours of therapy have been applied with the MBST magnetic resonance technology so far without any side effects or interactions becoming known. MedTec Medizintechnik GmbH stands for global leadership of market and technology with its worldwide patented therapeutically used MBST magnetic resonance technology.
