

## Global leader from Wetzlar is Champion of Innovation · TOP 100 Top-Innovator

On the 19th of June, 2020, MedTec Medizintechnik GmbH from Wetzlar has been awarded with the innovation prize TOP 100 Top-Innovator 2020 for the 4<sup>th</sup> time already after 2014, 2016 und 2018. It is especially noteworthy that the global leader in MBST magnetic resonance therapy ranks 2<sup>nd</sup> in its category.

### Only those who continue to develop with changes and innovations proactively succeed in the long term

TOP 100 with its mentor Ranga Yogeshwar selects the most innovative enterprises of German SMEs. Scientific supervisor of the project is Prof. Dr. Nikolaus Franke of the Vienna University of Economics and Business together with his team. MedTec Medizintechnik GmbH is title holder and is awarded in 2020 with the TOP 100 quality seal for the 4<sup>th</sup> time in the course of the last 10 years. This is an exceptional performance. The innovative SME from Wetzlar convinced the jury and achieved above-average scores in all assessment categories in the innovative competition TOP 100 which takes place for the 27<sup>th</sup> time this year. MedTec Medizintechnik GmbH even ranks 2<sup>nd</sup> in its category.

### Innovative treatment option · MBST Molecular Biophysical Stimulation

MedTec Medizintechnik GmbH has shown a continuous strength in innovation since its first participation in this competition for SMEs. As developer, producer and distributor of the MBST magnetic resonance therapy system, the Wetzlar-based company has become world market leader in therapeutically used magnetic resonance technology. The unique product portfolio has no competition on the medical-technology market and is actively distributed in more than 40 countries.

### Hightech product portfolio

MBST magnetic resonance therapy is used in inpatient and outpatient setting, preventively, postsurgically and rehabilitation-accompanying for the treatment of various degenerative diseases of the musculoskeletal system such as osteoarthritis, osteoporosis or disc conditions as well as for other diseases and injuries of biological tissues.

An increasing number of doctors, specialists, medical care centres, clinics and universities puts their trust into the MBST magnetic resonance therapy system – not only in Germany and Europe but around the world. The therapy is non-invasive, drug-free and without known side effects or interactions in more than 20 years of use. The MBST therapy system comprises therapy devices for the use in professional practices and mobile medical care as well as the supervised use in private households.

### About MedTec Medizintechnik GmbH

Founded in 1998, MedTec Medizintechnik GmbH from Wetzlar has developed from a pioneer to world market leader in the field of therapeutically used MBST magnetic resonance technology. MedTec develops, produces and distributes the worldwide unique and patented technology that is used in MBST therapy system for human, veterinary and aesthetic medicine. Doctors, specialist, medical centres, hospitals, clinics and universities put their trust in the MBST therapy system today – not only in Germany and Europe but worldwide. It is MedTec's vision to enable a healthy, active and pain-free life for patients of nearly every age with its therapeutically used MBST technology. The MBST magnetic resonance therapy achieves that in the treatment of various degenerative diseases and injuries of the musculoskeletal system without needing drugs, injections, infusions, pain killers or surgical interventions. More than 1,000,000 hours of therapy have been applicated with the MBST magnetic resonance technology so far without any side effects or interactions becoming known. MedTec Medizintechnik GmbH stands for global leadership of market and technology with its worldwide patented therapeutically used MBST magnetic resonance technology.
